PROFESSIONAL SUMMARY

Second-year B.Tech Information Technology student with hands-on experience contributing to full-stack web applications during an onsite internship and collaborative projects. Familiar with Python, Django, C++, Java (Basics), SQL and AI/ML-based web applications. Interested in Python/Django development and building practical, user-focused software solutions.

EDUCATION

B.Tech in Information Technology — Sri Krishna College of Engineering and Technology (SKCET), Coimbatore | Aug 2025–Present | **CGPA: 8.88/10**

HSC — MGM Matriculation Higher Secondary School, Krishnagiri | Jun 2024–Mar 2025 | **95.6%**

SSLC — GHSS, Puliyampatti, Krishnagiri | Jun 2022–Apr 2023 | **95.6%**

TECHNICAL SKILLS

Programming: C++, Python, Java (Basics)

Web Development: Django, HTML, CSS, JavaScript

Database: SQL, RDBMS (Basic)

Core CS: Object-Oriented Programming (Basic), Operating Systems (Basic), Data Structures & Algorithms (Foundational)

AI & ML: Artificial Intelligence, Machine Learning, AI/ML-based web application development

Tools & Platforms: GitHub, GitHub Desktop, VS Code, Vercel, Antigravity AI

INTERNSHIP EXPERIENCE

Python Developer Intern — Adhoc Softwares Pvt. Ltd. | Onsite | 21 Oct – 6 Nov 2026

- Contributed to a team-developed Student–HOD Management System, working across frontend and backend modules.
- Built student login, registration and document-upload pages using Django and web technologies.
- Developed HOD-facing pages for document assignment and management workflows.
- Integrated and tested student and HOD workflows as part of the development team.

PROJECTS

Student–HOD Management System | Team Project | Internship

Python, Django, HTML, CSS, JavaScript

- Built student login, registration, document-upload and HOD document-management pages.
- Contributed to frontend and backend implementation within the internship team.

MetroScan AI – Package Compliance Scanner | Hackathon | Team Project

Python, Django, HTML, CSS, JavaScript, AI/ML

- Collaborated on a web-based package-compliance scanner for analysing packaged-product information.
- Live project: https://package-scanner-rust.vercel.app/

Disease Prediction Web Application | AI/ML Web Project

AI/ML, Web Development

- Developed and deployed a live disease-prediction website using AI/ML concepts.
- Live project: https://akash2025it-gif.github.io/codeAlpha_disease_prediction/

Personal Portfolio Website | Personal Project

HTML, CSS, JavaScript, Vercel

- Built and deployed a portfolio website showcasing technical skills, projects and professional profiles.
- Live project: https://portfolio-51nk.vercel.app/

CERTIFICATIONS

- Google Prompting Essentials Specialization — Google
- Microsoft Azure AI Fundamentals (AI-900) Exam Prep Specialization — Microsoft
- Google AI Specialization — Google
- AWS Cloud Practitioner Essentials — AWS (course completion)
- SQL: A Practical Introduction for Querying Databases — Coursera

ACHIEVEMENTS

- Selected for district-level chess competitions from 4th to 12th standard; represented at state level on three occasions.
- Received SBI and LIC scholarships; renewal is subject to academic eligibility.
- Participated in hackathons, gaining experience in collaborative technical problem-solving.

Languages: Tamil, English
